

H-6700S Digital IR Radiator

Product ID: H-6700S

Short Description

Radiates & distributes up to 32 channels of audio signal

Description

- ? Radiates & distributes up to 32 channels of audio signal
- ? Transmission distance can be more than 30 meters (25W)
- ? Auto switched on/off by carrier signals from transmitter unit
- ? Convection cooled for noiseless, reliable operation
- ? Mounted on ceiling, wall, floor stand or optional tripod
- ? Easily daisy-chained together to expand coverage
- ? Delay compensation switch two compensate for difference in cable lengths between transmitter and radiators
- ? Angle of half radiator angle: $\pm 22^\circ$

Specification

Item	Parameter
HF input	Nominal 1 Vpp, minimum 10mVpp
Angle of half intensity	$\pm 22^\circ$
Total optical peak intensity	24 W/sr
Power consumption	Operating: 30W; Standby: 25 W
Transmission distance	<30 meters/16 CH

Number of IREDs	312
Power supply	AC110V-220V ~ 50Hz-60Hz
Dimension (mm)	445×235×113
Operating temperature range	0-40°
N.W (Kg)	4.2
Mounting	Standard: Bracket, Option: tripod
