IP66 Waterproof

Description

Introducing our new designed 4 inch 20W 2-way outdoor IP66 waterproof wall mount patio speaker, the perfect audio solution for outdoor spaces. With its durable construction and impressive sound quality, this speaker is designed to withstand the elements while delivering exceptional performance.

Built to withstand outdoor conditions, the speaker is IP66 waterproof and weather-resistant, providing reliable performance in rain, snow, or high humidity. Its rugged enclosure protects against UV rays, ensuring long-lasting durability and preserving the speaker's aesthetics.

Featuring a 4-inch woofer and a 2-way design, this speaker offers a balanced sound reproduction with clear highs and robust lows. Whether you're hosting a backyard gathering, enjoying your patio, or creating an outdoor entertainment area, this speaker ensures an immersive audio experience.

1" tweeter driver

4" woofer driver

With a power rating of 20 watts, this speaker delivers ample volume to fill your patio or outdoor area with clear, rich sound. Whether you're playing background music or hosting a lively outdoor party, this speaker is up to the task.

Installation is a breeze with the included wall mount bracket. The adjustable bracket allows for flexible positioning, so you can direct the sound precisely where you want it. The speaker can be mounted vertically or horizontally, depending on your preference and the layout of your outdoor space.

Add a touch of style to your outdoor space with the sleek and unobtrusive design of this speaker. Its neutral color and compact size blend seamlessly into any outdoor decor.

Upgrade your outdoor audio experience with the 4 Inch 20W 2-Way Outdoor Waterproof Wall Mount Patio Speaker. Enjoy exceptional sound quality, durability, and versatility, transforming your patio or garden into a captivating entertainment area.
