Product ID: G-S801

Short Description

Rated power: 60W

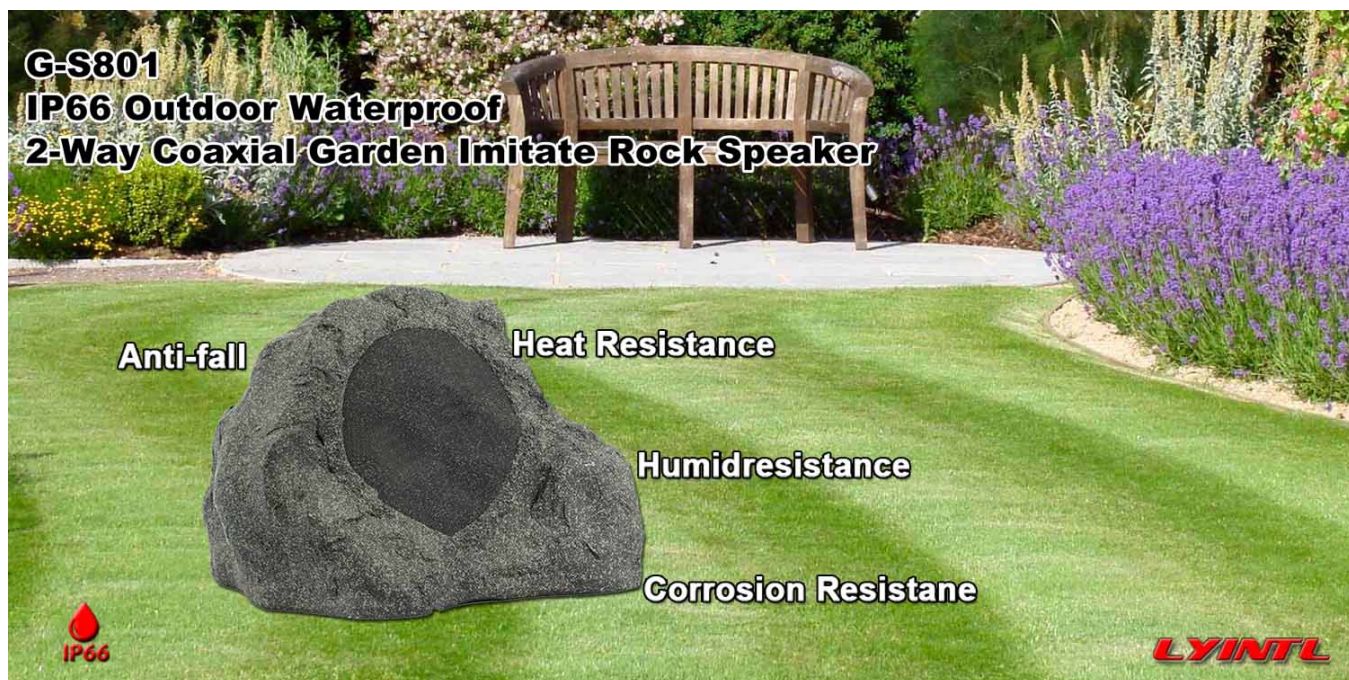

Line input: 100V

8" 2-way coaxial speaker unit

Resin material, IP66 waterproof

Description

Introducing our top-of-the-line 8" 2-way coaxial outdoor IP66 waterproof garden imitate rock speaker G-S801. Crafted to blend seamlessly into any outdoor setting, this speaker delivers exceptional sound quality while withstanding the elements with ease. Featuring an 8" PP cone woofer speaker driver unit and a 1" coaxial tweeter, this speaker ensures crystal-clear audio reproduction with deep, rich bass and crisp highs.

Constructed from high-quality glass fiber plastic (resin), this speaker is built to withstand extreme conditions. Its heat-resisting, waterproof, sun-proof, and shatter-resistant design ensures durability and reliability in any outdoor environment. The Aluminum grille not only enhances sound dispersion but also offers anti-rust and damp-proof properties for long-lasting performance.

With its imitate rock design, this speaker seamlessly integrates into garden landscapes, adding to the aesthetic appeal without compromising on performance. Whether you're hosting outdoor gatherings or simply enjoying some music in your backyard, this speaker is the perfect addition to your grassland landscape.

Experience the perfect blend of superior sound quality and rugged durability with our 8" 2-way coaxial outdoor imitate rock speaker.
