

DA-2125/DA-2250/DA-2500 Dual Channel Class D Digital Amplifier

Product ID: DA-2125/DA-2250/DA-2500

Short Description

Rated output power: 2*125W / 2*250W / 2*500W
70V/100V power output
1 U slim design

Description

- ? Multiple channels in 19" standard rack cabinet
- ? 70V/100V power output optional
- ? Full digital with 2*125W / 2*250W / 2*500W high efficiency
- ? With priority input function and 100V input
- ? 1 U slim design, space and cost saving
- ? With standby function for power saving

Specification

Model	DA-2125	DA-2250	DA-2500
-------	---------	---------	---------

Channel	2		
Rated power per channel	125W	250W	500W
Rated output power	70V/100V		
Input sensitivity	775mVRMS(0dBV/balanced input) 100VRMS (100V unbalanced input)		
S/N ratio	>80dB		
Input impedance	60K Ohms (balanced) 20K Ohms (priority) 100K Ohms (100V unbalanced)		
Frequency response	80Hz-15kHz (± 3 dB)		
T.H.D.			
Power consumption	300W	600W	1200W
Power requirement	AC180-260V/50-60Hz DC24V(rated power -3dB)		
Net weight (Kg)	6.7	6.9	7.3
Gross weight (Kg)	8	8.2	8.6
