

H-8700B Infrared Wireless Conference System LIP Battery

Product ID: H-8700B

Short Description

Working time > 6 hours

Standby time > 25 hours

Description

This IR wireless conference system LIP battery offers excellent safety performance, light weight and high capacity ratio.

? Excellent safety performance, light weight & high capacity ratio

? Improved safety: more resistant to overcharge; less charge for electrolyte leakage

? High capacity: have nearly double the capacity with half the weight of NiCad or NiMH battery packs

? Easy to install

Specification

| Item | Parameter |
|------------------------|-----------|
| Rated Voltage | DC12V |
| Discharge Current | <500mA |
| Charging Current | <700mA |
| Time of Speaking | >6 hours |
| Time of Standby | >25 hours |
| Charging Voltage | DC15V |
| Dimension (LxWxH) (mm) | 130x75x20 |
| Net Weight (Kg) | 0.25 |
