

H-W8800WG Wireless Voting System Battery Charger Case

Product ID: H-W8800WG

Short Description

Can charge 32pcs voting unit simultaneously

Description

This battery charging box is used for charging voting units.

Its charging electronics and a charging indicator LED are integrated in each voting unit.

The charging circuitry checks if a battery is present and controls the charging process receivers per charging.

Intelligent charging management electron circuit to protect the Lithium battery.

Equipped with extendable handle and pulley, easy for moving.

? High efficiency switch mode

? Input voltage: AC110V/240V, 50Hz~60Hz

? Charges 32pcs of voting unit per charging

? Dimension: 620x370x290mm

Specification

Item	Parameter
Power Supply	110V-240V/50Hz-60Hz
Power consumption	120W
Charge quantity	32
Max charging current of each unit	600mA
Charging time	About 4 hours
Charging status	Red LED flashing: charging LED off: full charged
Net Weight (Kg)	10.5 without battery
Dimension (mm)	620x370x290
