Product ID: G-3660

Short Description

Rated power: 20W

Line input: 100V

Plastic material, waterproof IP66

Description

This landscape garden speaker is coming with a 100V transformer, which is realized in a high-voltage, low-current mode, which makes longer distance transmission and parallel connection of multiple loudspeakers possible.

High quality engineering plastic enclosure, weatherproof and heavy damage proof finish.

Easy and secure installation in outdoor area.

It is a good ideal choice for industrial and commercial applications in the outdoor area such as parks and zoos where background music and paging is needed.
